“DOWN MEMORY LANE”

**Reminiscence
with songs, stories
and pictures**

Keep your service users alert and active with a programme of lively music to sing along to and, where appropriate, use simple percussion instruments.

With many years' experience in centres for the elderly and a repertoire of over 500 songs Stuart can adapt his performance to reach out to residents across the whole spectrum of care needs.

He plays acoustic guitar and sings without the need for microphones.

He is a qualified teacher who worked in schools, colleges and adult education before becoming a professional musician. Since then he has performed all over the world, recording seven studio albums and making many TV and radio appearances, including a residency on BBC Radio 2's *Night Ride*.

FREE CD available on request.

Please see overleaf for testimonials from other residential homes and voluntary organisations.
